

Referral to Treatment (RTT)

Report Information

This report provides an overview of the monthly RTT dataset including: Completed pathways, Incomplete pathways, Breaches, performance & Clock Starts.

RTT Performance is calculated as the percentage of all incomplete pathways which have been open for 18 weeks or less, with those open longer being breaches. Breaches are then grouped into 52 weeks plus, 65 weeks plus and 78 weeks plus.

Views of both N&W ICB as a commissioner and N&W Acute providers total complete and incomplete pathways have been provided, with the ability to compare providers & analyse further detail across the Specialties. Data is available as an in month snapshot as well as over time going back to April 2019.

Information can be filtered using the right hand filter panel to further interrogate the information.

For further information on the data source please use the data available via NHS England: [National RTT Data](#)

Navigating the Report

Interactive buttons in the header of each tab allow you to navigate to different screens of the report, or clear the filters on the current page.

The data in the report is interactive - if you select a particular area the other charts will update to reflect the selected field, deselecting or clicking on the clear filters button will revert the page to the default view. Select multiple areas by holding down ctrl and clicking on each area.

Data in the report can also be filtered using the available drop down filters on the page, or if the filter pane (to the right) is in use, additional filters can be found there.

If you have any queries please contact the team email address below, and your query will be routed to the appropriate team member.

Information Governance Notes

About you – by accessing the Insights Hub report your details are logged and will be securely retained for monitoring and audit purposes.

About the Report and Usage –

- Do not attempt to Re-ID individuals or attempt linkage which might result in Re-Id
- Do not share outside your organisation unless agreed by your IG Team

Under the Data Protection Act 2018 S.171 (1) "It is an offence for a person knowingly or recklessly to re-identify information that is de-identified personal data without the consent of the controller responsible for de-identifying the personal data."

This report could contain potentially identifiable factors that could be deemed as special category data (sensitive data) and therefore is not permissible to share outside the relevant department/organisations.

Any breach in law or unauthorised use risks, the ceasing of data flows from NHS England, the removal of access and possible disciplinary action by your organisation.

Report Update Log

24/10/2025 - v2.0 - Repointed to Snowflake and rebranded

03/03/2025 - v1.0 - initial deployment.
